

Petition: End Dolphin Captivity in NSW

To the Honourable the President and Members of the Legislative Council of New South Wales:

We, the undersigned New South Wales citizens, request that the House:

- Acknowledges that dolphins in captivity have very little space and cannot behave naturally.
- Recognises that whales and dolphins are highly intelligent creatures that need to live in complex social groups, which is required for their physical and mental wellbeing.
- Reaffirms that even though captive dolphins are kept in an environment free of predators, pollution and other threats, they die young. The death rate for infant whales and dolphins is significantly higher in captivity.
- Supports the phase out of dolphins being held in captivity in Australia.
