

# **Petition: Transform transport in NSW**

**To the Honourable the President and Members of the Legislative Council of New South Wales:  
We, the undersigned New South Wales citizens, request that the House:**

- Supports real investment in publicly-owned and integrated public transport not new polluting toll roads and privatised services
- Reaffirms that public transport should be built and planned transparently for the benefit of the community
- Recognises the need to invest in public and active transport projects and infrastructure and move more freight on to rail
- Supports the adoption of bold modal share targets for public transport alongside a clear strategy for achieving them
