

Petition: End Factory Farming

To the Honourable the President and Members of the Legislative Council of New South Wales:

We, the undersigned New South Wales citizens, request that the House:

- Recognise that animals in factory farming live in terrible and cruel conditions. Battery chickens can spend their lives in space less than the size of a piece of A4 paper and pregnant female pigs are kept for up to 16 weeks in a sow stall barely large enough for them to take a single step forward or backward and unable to move sideways at all.
- Note that although there have been some voluntary undertakings, a legislative ban on the worst forms of factory farming is required to enact change and improve the welfare of all farmed animals.
- Supports the Greens bills currently before the NSW Parliament to end factory farming, including banning battery cages, debeaking, sow stalls and farrowing crates.
