

TELL THE GOVERNMENT TO STOP PRIVATISING PUBLIC TRANSPORT IN NSW

YOUR PETITIONERS REQUEST THAT THE HOUSE

To the President and Members of the Legislative Council of New South Wales:

This petition notes that:

- This Government has gradually been privatising public transport services across NSW.
- Privatisation of public transport leads to transport being run for private profit, a lack of accountability, and less transparency. It also means reduced access for people living in the most disadvantaged areas.
- Affordable, accessible and safe public transport is an essential public service and should remain in public hands.

call on the Government to

- Stop the privatisation of publicly owned and operated public transport services in NSW.
- Reverse the privatisation of public transport in NSW.
- Invest in the provision of more publicly owned and operated transport services in NSW.
